## PROFILE

Final-year BCA student and Product Design enthusiast, building impactful and user-centered digital experiences. Proficient in wireframing, prototyping, and creating intuitive user flows, demonstrated through personal projects and portfolio showcases.

## LANGUAGE

English Intermediate

Hindi Native

Gujarati Intermediate

## CUSTOM SECTION

Strengthening design and prototyping expertise by working on hands-on projects, leveraging tools like Figma, Adobe XD, and Miro to solve real-world user experience challenges.

## EDUCATION

### Bachelor Of Computer Application (BCA) - 6.78

Parul University

August 2023 - Present

## PROJECTS

### Lunora -Spiritual AI Mobile Experience

November 2025 - November 2025

- Designed a serene AI-powered spiritual app that blends astrology, meditation, and mood insights.
- Focused on minimal UI, intuitive navigation, and soothing animations to elevate user calmness.
- Enhanced overall usability and engagement with an emotion-driven design approach.

### Digital Studio Website – Wix Studio

October 2025 - October 2025

- Designed and developed a fictional digital studio company website using Wix Studio.
- First-time Wix Studio project, exploring design tools, animations, and responsive layouts.
- Focused on achieving a modern and professional brand identity with interactive elements and clean visual hierarchy.

### Legacy Works - Brand Identity

September 2025 - September 2025

- Developed a complete branding package for an antique furniture chain, including logos, business cards, letterhead, banner, and social media mockups.
- Created a visual identity that merges traditional heritage with modern design principles, reflecting timeless elegance.
- Designed and presented a professional case study, highlighting the design process from research to final deliverables.

### DashJob - Job Dashboard Platform

August 2025 - September 2025

- Designed a job-seeker dashboard to help users manage job applications effectively.
- Focused on information hierarchy, clean layouts, and intuitive navigation.
- Developed responsive web prototypes in Figma.

### Neurodot - Mental Health Dashboard

August 2025 - August 2025

- Designed a UI/UX case study for a mental wellness platform with mood tracking.
- Built wireframes, user journeys, and interactive prototypes in Figma.
- Applied minimal and accessible design principles to improve user experience.

### PCOS Health Dashboard - Data Analytics Project

July 2025 - July 2025

- Built an interactive dashboard to track symptoms, cycles, and health trends in PCOS patients.
- Technologies: MS Excel, Power BI
- Designed data visualizations to identify key health patterns and provide actionable insights.
